In re Patent No. 6,525,060 :
Issue Date : February 25, 2003 :
Application No. 09/508,195 : DECISION ON PETITION
Filed: March 8, 2000 :
Attorney Docket No. 3764-2 :

This is a decision on the Petition to Expunge Documents Under 37 CFR 1.182, filed September 8, 2011, which is being treated as a petition under 37 CFR 1.182 to invalidate an assignment previously recorded against the above-identified patent.

The petition is **dismissed**. This is not a final agency action.

Petitioner indicates an assignment recorded on May 16, 2001 was erroneously filed for the above identified patent and requests this assignment record be expunged from the file.

As discussed in section 323.01(d) of the Manual of Patent Examining Procedure (MPEP), petitions to correct, modify or "expunge" assignment records are granted only if the petitioner can prove that:

- (A) the normal corrective procedures outlined in MPEP § 323.01(a) through §323.01(c) will not provide the petitioner with adequate relief; and
- (B) the integrity of the assignment records will not be affected by granting the petition.

Petitioner has not proven either item A or B.

Moreover, petitioner seeks an extraordinary remedy, properly addressed under 37 CFR 1.182. The USPTO will not normally resort to an extraordinary remedy under 37 CFR 1.182 if the rules of practice and the procedures before the USPTO already provide an avenue for the requested relief. See Cantello v. Rasmussen, 220 USPQ 664, (Comm'r Pats. 1982).

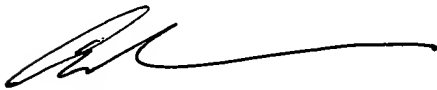

As background, the USPTO simply acts in a ministerial capacity in recording documents that have been submitted for recordation. See 35 USC 261 and 37 CFR 3.11. However, the recording of a document pursuant to 37 CFR 3.11 is **not** a determination by the USPTO of the validity of the document *per se* or the effect that document has on the title to a patent or

application. See 37 CFR 3.54. Moreover, it is USPTO policy to maintain a complete history of claimed interests in a given property, and, as such, a recorded assignment document will be retained, even if it is subsequently found to be invalid. In re Raney, 24 USPQ2d 1713 (Comm'r Pat. 1992).

As set forth in MPEP 323, an error in a recorded assignment is not corrected by invalidating the previous document, but by simply submitting a "corrective document". The "corrective document" must include 1) a copy of the original assignment document with the corrections made therein. The corrections must be initialed and dated by the party conveying the interest; and 2) a new Recordation Form Cover Sheet (form PTO-1595). The new recordation form cover sheet must identify the submission as a "corrective document" submission and indicate the reel and frame number where the incorrectly recorded assignment document appears. The person signing the new recordation form cover sheet must state that the information provided on the new cover sheet is true and correct and that any copy submitted is a true copy of the original document. The original cover sheet should be submitted with the corrective document. The corrective document will be recorded and given a new reel and frame number and recording date. The recording fee set forth in 37 CFR 1.21(h) is required for each patent application and patent against which the corrective document is being recorded. See MPEP § 302.06. Petitioner should note that the "assignment documents" and "corrective documents" are not limited to assignments, but include any documents affecting title to a patent or application. See MPEP § 313.

Therefore, the rules of practice and the procedures before the USPTO provide an avenue for the requested relief without relying upon extraordinary measures. That is, the chain of title can be clarified in the assignment records through the recording of a corrective document. As a request for the Office to invalidate an assignment is both extraordinary and contrary to USPTO policy, this petition must be dismissed.

Telephone inquiries concerning this communication should be directed to Carl Friedman at (571)272-6842.
